Patricia, with the agreement of the State of Texas (TCEQ), we were able to better refine the numbers and reduce the amount of the request for the mission assignment down to \$3,301,270.60

The original \$6.2 million dollars was based on our burn rate average (which was what we had been advised to do by FEMA two weeks ago when we were doing the 5-day increments while we were at the peak of field operations).

The new total reflects better what we believe the total costs to be to finish out the work requested for by the State under the Mission Assignment.

Please call me at 214-665-2276 if you have any questions on this estimate.

**With Regards, Steve**

**Subject:** RRF Request

Good Afternoon,

Attached is the RRF submitted by the state for an additional \$6,200,000.00.

Can you please provide a cost estimate for the additional?

Thanks,

**Patricia A. Moore – MBA/MHRM**
